

Important Information

Application for 2025 Hospital Employment Year Anaesthesia Rotational Program Positions

Dr. Tarin Ward, Coordinator, VATC

E: vicanaesthesiatrainingcommittee@gmail.com

W: <http://www.facebook.com/vicanaesthesiatrainingcommittee>

The Victorian Anaesthesia Training Committee (VATC) is a sub-committee of the Victorian Association of Directors, a body that represents the departments of the Victorian public hospitals that employ trainees under the jurisdiction of the Department of Health, Victorian State Government.

Introductory and Basic Training

Application to the Victorian rotational training programs is through a single online application form coordinated by the VATC. The link to the application form is:

<https://www.formdesk.com/vats/ibapplication>

Each program will be conducting its own shortlisting and interviews. Applicants shortlisted to be interviewed for more than one program will need to complete an online preference form.

Information regarding this will be available on the application form and at the time of interview.

Advanced Training

VATC does not run an application process. Basic Trainees within one of the Victorian Rotational Programs transitioning to Advanced Training need to contact their Rotational Supervisor. Application into Advanced Training from outside of one of the Victorian Rotational Programs is ultimately through individual departments. To aid communication for matching interest with requirements, VATC runs a "Registration of interest" for lateral entry into Advanced Training positions. Registering interest is via the link below:

https://www.formdesk.com/vats/AT_Interest_Reg

Provisional Fellowship & International Medical Graduate Specialist Positions

VATC does not run either an application process or a "registration of interest". Applications are made directly to individual departments of Anaesthesia in Victoria.
