

Short title: Anaesthetist duties

1. Introduction

The duties of specialist anaesthetists are outlined in this document. These duties may include providing high quality and safe patient care both within and outside the operating theatre. Perioperative care, management roles, research, audit and education are all clearly recognised as important responsibilities of specialist anaesthetists.

2. Clinical duties

- 2.1 Provision of anaesthesia and perioperative medical services for patients as required.
- 2.2 Clinical management and organisation of pre-anaesthesia assessment clinics and preparation of patients for surgery.
- 2.3 Supervision of anaesthesia trainees and other staff as required.
- 2.4 Supervision of patients in post-anaesthesia care units (PACUs).
- 2.5 Provision of appropriate post operative care with special attention to acute pain.
- 2.6 Supervision of clinical anaesthesia services in the role of the daily duty co-ordinator.
- 2.7 Management of the anaesthesia component of the day surgery unit in collaboration with a multidisciplinary team.
- 2.8 Organisation and clinical management of acute pain services and participation in pain medicine units where applicable.
- 2.9 Provision of acute resuscitation services for all emergencies, including retrieval services.
- 2.10 Management of patients in the intensive care unit, particularly when there is no intensive care medicine specialist available.
- 2.11 Supervision and/or management of cardiopulmonary bypass.
- 2.12 Clinical duties in the hyperbaric medicine unit as required.
- 2.13 Management of anaesthesia in remote locations such as emergency departments, medical imaging departments, cardiac and vascular investigatory laboratories and coronary care units where the facilities meet the ANZCA standards for minimum facilities for safe administration of anaesthesia.
- 2.14 Other clinical services as may be necessary and appropriate to the specialty.

3. Clinical support duties

- 3.1 Managerial duties within the hospital including perioperative units, pre-anaesthesia clinics, operating suites and PACUs.
- 3.2 Organisation of and participation in appropriate educational activities for:
 - 3.2.1 Specialist anaesthetists
 - 3.2.2 Anaesthesia trainees.
 - 3.2.3 Intern and resident medical staff.
 - 3.2.4 Medical students.
 - 3.2.5 Trainee and postgraduate nurses.
 - 3.2.6 Anaesthesia nurses and/or technicians.
 - 3.2.7 PACU nurses.
 - 3.2.8 Operating room nurses.
 - 3.2.9 Other health professionals.
 - 3.2.10 Community groups in subjects such as basic life support.
- 3.3 Participation in peer review and quality improvement activities to ensure quality of patient care.
- 3.4 Participation in continuing medical education in compliance with the college's continuing professional development standard.
- 3.5 Contribution to activities of professional associations, hospital committees, and other relevant state, national and international organisations.
- 3.6 Health advocacy, in particular in those areas relating to perioperative safety and quality patient healthcare.
- 3.7 Participation in research and reviews on matters relevant to anaesthesia, perioperative medicine, pain medicine, resuscitation and intensive care. These activities may include assistance to trainees with their scholar role activities.
- 3.8 Participation in programs to safeguard personal wellbeing as well as the wellbeing of colleagues, trainees and related professionals.
- 3.9 Participation in activities promoting the image of the specialty to professional colleagues and to the public.

This document is accompanied by a background paper (PS57(A)BP) which provides more detailed information regarding the rationale and interpretation of the Statement.

Professional documents of the Australian and New Zealand College of Anaesthetists (ANZCA) are intended to apply wherever anaesthesia is administered and perioperative medicine practised within Australia and New Zealand. It is the responsibility of each practitioner to have express regard to the particular circumstances of each case, and the application of these ANZCA documents in each case. It is recognised that there may be exceptional situations (for example, some emergencies) in which the interests of patients override the requirement for compliance with some or all of these ANZCA documents. Each document is prepared in the context of the entire body of the college's professional documents, and should be interpreted in this way.

ANZCA professional documents are reviewed from time to time, and it is the responsibility of each practitioner to ensure that he or she has obtained the current version which is available from the college website (www.anzca.edu.au). The professional documents have been prepared having regard to the information available at the time of their preparation, and practitioners should therefore take into account any information that may have been published or has become available subsequently.

While ANZCA endeavours to ensure that its professional documents are as current as possible at the time of their preparation, it takes no responsibility for matters arising from changed circumstances or information or material which may have become available subsequently.
