

How to report anaesthetic mortality in WA

How to notify

Notification may be made by completion of the below electronic form – all instructions are provided in the form.

The following information will be required for completion of the form:

- Patient details
- Dates and times anaesthesia commenced and ended
- Date and time patient deceased
- Details of anaesthetists and surgeons/proceduralists involved
- Case details:
 - Pre-operative assessment and management details
 - Intraoperative and post-operative details
 - Anaesthetic assistance
 - Other information, issues or comments
- Upload of anaesthetic chart or other documentation (optional)

Entry of data in this electronic form may be suspended at any stage and recommenced at a later time. All details entered will be retained without any loss of information.

Please follow this link to the WA DOH webpage with the electronic Notification form:
