

ANZCA and FPM CPD program

Emergency response education session - Declaration form

Name of course provider: _____

Name of institution/private practice: _____

Session title: _____

Emergency response activity:
(CICO, Cardiac Arrest, Cardiac Arrest SPMP) _____

Recognition of suitability code: _____

Course provider

- I am notifying the college of delivering a continuing professional development (CPD) emergency response activity's hands-on learning objective through an online or virtual format.
- I understand this is subject to the COVID-19 pandemic restrictions, and extending the hands-on learning objectives to include virtual and online learning is being piloted for 12 months until September 30 2021. Revision may occur during this time in relation to the evolving pandemic.
- I understand virtual/online workshops/courses will be conducted with live sessions (i.e. participants must be observed in real time). Enrollment in virtual/online learning must ensure participants display leadership skills in a live session if unable to meet physically to direct or lead a team.
- I declare that the original approved application with the above recognition of suitability code still meets the emergency response standard's learning objectives.
- Upon approval of my completed declaration form, I request a new recognition of suitability code be issued to provide CPD participants for recording this CPD activity using the online or virtual format.
- I understand that if the content/duration of this course is altered, this recognition will become void and a new application form will need to be submitted.
