

Short title: Anaesthetist duties BP

1. Purpose

To clarify the breadth of duties undertaken by specialist anaesthetists.

2. Scope

This professional document applies to all specialist anaesthetists, recognising that the breadth of duties for this group of practitioners is wide and varied, and extends to roles beyond the operating theatre.

3. Background

In April 2012 ANZCA Council established a document development group to explore the potential amalgamation of the professional documents *PS16 Statement on the standards of practice of a specialist anaesthetist* (most recently reviewed in 2008) and *TE06 Guidelines on the duties of an anaesthetist* (interim review in 2010; re-badged as *PS57* in 2012 and *PS57(A)* in 2021).

The document development group believes that a statement on the standards of specialist anaesthetists is best dealt with within the *ANZCA Code of Professional Conduct*, recognising that while the code is written for fellows of the college, it could reasonably be expected that the standards expressed therein apply to all specialists.

The amendments to *PS57(A) Position statement on duties of specialist anaesthetists* largely reflect changes to the curriculum, and contemporary nomenclature. The introduction to the document has been amended to reflect the growing recognition that the duties of specialist anaesthetists extend beyond the operating theatre, and importantly include roles in perioperative medicine, management, audit, research and education.

4. Summary

It was decided to withdraw *PS16 Statement on the standards of practice of a specialist anaesthetist* upon release of a revised code of conduct.

Process of document review

The document development group comprised:

Dr Rodney Mitchell (Chair), FANZCA, Councillor
Dr Peter Roessler, FANZCA, Director of Professional Affairs (Professional Documents)
Dr Justin Burke, FANZCA
Dr Alison Corbett, FANZCA
Dr Vaughan Laurenson, FANZCA, Director of Professional Affairs (Deputy Assessor)

The following were also consulted:

ANZCA regional/national committees
Special interest groups
ANZCA Trainee Committee
Faculty of Pain Medicine Board and regional committees
Mr Paul Cargill, Policy Officer, Community Development

A revised version of PS57(A) was promulgated in mid 2013 with pilot status for approximately one year. There were no amendments proposed during this period and at the end of the pilot phase the document was finalised without amendment.

Professional documents of the Australian and New Zealand College of Anaesthetists (ANZCA) are intended to apply wherever anaesthesia is administered and perioperative medicine practised within Australia and New Zealand. It is the responsibility of each practitioner to have express regard to the particular circumstances of each case, and the application of these ANZCA documents in each case. It is recognised that there may be exceptional situations (for example, some emergencies) in which the interests of patients override the requirement for compliance with some or all of these ANZCA documents. Each document is prepared in the context of the entire body of the college's professional documents, and should be interpreted in this way.

ANZCA professional documents are reviewed from time to time, and it is the responsibility of each practitioner to ensure that he or she has obtained the current version which is available from the college website (www.anzca.edu.au). The professional documents have been prepared having regard to the information available at the time of their preparation, and practitioners should therefore take into account any information that may have been published or has become available subsequently.

While ANZCA endeavours to ensure that its professional documents are as current as possible at the time of their preparation, it takes no responsibility for matters arising from changed circumstances or information or material which may have become available subsequently.
