

DHM Multi-source Feedback – Supervisor Summary Form

This form should be used by supervisors of trainees completing the Diploma of Advanced Diving and Hyperbaric Medicine to collate individual responses for the multi-source feedback.

Assessment details

Name of trainee _____

Number of multi-source feedback forms (MsF) received (minimum six) _____

Were MsF forms collected from staff from various backgrounds? Yes No

Date of feedback meeting _____

Assessment

Collated ratings for each descriptor should be expressed as a fraction of total responders that were able to observe and assess the trainee for that item. The most common rating should be identified in bold.

Roles in practice	Descriptor	Never	Occasionally	Sometimes	Consistently	Unable to assess
Communicator	Demonstrates effective interpersonal communication skills.					
	Conveys all relevant information when transferring care of a patient.					
Collaborator	Participates constructively as a member of a multidisciplinary team.					
	Conveys relevant information when transferring care of a patient to another practitioner.
