

Case-based discussion (CbD) paper form

The trainee should provide three case records that they managed fairly independently. The supervisor selects one case for discussion with the trainee.

Details

Date of assessment _____

Relevant EPA _____

Trainee name _____

Supervisor name _____

What was the trainee's role in this case? _____

Description of case (including patient's age, ASA and procedure)

Assessor Observations

What level of supervision does the trainee require to provide effective patient care for a similar case in the future?

<input type="checkbox"/> Level 1 Trainee needs substantial supervisor input to evaluate issues	<input type="checkbox"/> Level 2 Trainee needs some input to evaluate issues	<input type="checkbox"/> Level 3 Trainee has up to date knowledge and evaluates issues well, supervisor input only required for minor aspects of the case	<input type="checkbox"/> Level 4 Trainee demonstrates ability to thoroughly evaluate issues and justify clinical decisions and could be entrusted to manage this case
--	--	---	---

Please provide observations and feedback about how the trainee can improve their practice in the following areas (Please note n/a if not relevant to this case)

Patient Assessment	<p><i>Presents an appropriate assessment of the patient. Identifies the significant issues to be addressed and presents these logically.</i></p>
---------------------------	--

<p>Management</p>	<p><i>Formulates an appropriate clinical plan, understanding how to address issues (patient, procedure, pathology, positioning). Demonstrates ability to anticipate and manage emerging clinical problems and complications.</i></p>
<p>Reasoning and Insight</p>	<p><i>Justifies clinical decisions. Demonstrates an ability to balance risks and benefits. Recognises the limits of their expertise and experience, as well as seeking advice appropriately. Reflects upon learning to improve future practice.</i></p>
<p>Rural context</p>	<p><i>Trainee considers patient, facility, and surgical factors and reflects on how these may influence planning in a rural or remote context. Can describe how they would manage different scenarios in different contexts in which RGA practice occurs.</i></p>

Overall Feedback

<p>Examples of what was done well</p> <p><i>Example: Well thought through clinical plan, taking patient's asthma into account.</i></p>	
<p>Areas that need improvement and action</p> <p><i>Example: Further consideration of the effect of geographical isolation on planning</i></p>	

Trainee Reflection and Comments

<p>Trainee reflection and comments</p>	
<p>Trainee action plan</p> <p><i>Example: Refer to hospital guidelines on anticoagulation management and institute a perioperative plan.</i></p>	<p><i>Based on my reflection and the feedback I have received, I intend to:</i></p>
